2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin E. Urcia, Reg. No. 33,805 on 10/30/2007.

Allowable Subject Matter

3. Claims 8-12 (to be renumbered in order) are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 8, claim limitations related to Glushkov's Automaton, used in an algorithm for generating a list of selectable elements, to be presented as a list in a document editor software, said list of presented elements to comply with the document type definition, are found to be novel.

Moreover, evidence for modifying the prior art of record, by one of ordinary skill level in the art was not uncovered so as to result in the invention.

Thus remaining dependent claims, claims 9-12, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
